

Poster Session - ISSC4 - 2017

First International Symposium on Supply Chain 4.0: Trends, Challenges and Opportunities from the 4th Industrial Revolution
 August 28-29th, 2017, University of Campinas (UNICAMP), Limeira, Brazil - Organized by the SC4 (Collaborative Research Network on Supply Chain 4.0)

Title	Authors	Corresponding author
Innovation and its challenge emerging from the fourth industrial revolution	Beliveau M, Santa-Eulalia LA, Mosconi E1	Martin Béliveau
Smart Collaborations on Research, Development and Innovation Projects	Amorim JA, Agostinho OL, Azevedo AT	Joni A. Amorim
Customer-Supplier Relations in the Industry 4.0: a case about automotive industry	Toledo EC, Ignácio PSA	Eleni Cezario de Toledo
IoT and Big Data oriented to predictive maintenance in an automotive industry	Cordeiro GO, Cestari JMAP, Deschamps F, Lima EP	Marcelo Cestari
Additive manufacturing: potential changes in operations	Franco D, Santa-Eulalia LA, Ganga GMD	Denise Franco
Fourth Industrial Revolution: Key perspectives and opportunities for skills and abilities development	Carvalho NGP, Cazarini EW, Esposto KF, Muschard B	Núbia Gabriela
Logistics Optimization in the Context of Industry 4.0	Curcio E, Santos M, Amorim P, Miyazawa F	Eduardo Curcio
Industry 4.0 in the Logistics Area: a Review Study	Gonçalves MP, Andrade Jr. PP, Yoshino RT, Marçal M	Murilo Porto Gonçalves
Innovation and New Business Models on Industry 4.0 Approach	Chuma RRPC, Makiya IK, César FIG	Ricardo P C Chuma
Technical and personal skills for Industry 4.0: a comparison between academic education and industry demand	Petrelli MZ, Cherubim W, Assaf D, Silva AL, Giocondo FI	Marcelo Petrelli
Emerging technologies and their impact in reverse logistics	Mendes JV, Santa-Eulalia LA, Awasthi, A	Juliana Mendes
Quality 4.0: the new Age of Quality	Pontes J, Broday E	Joseane Pontes
Operations Management and Industry 4.0: The Impact of Cyber-Physical Systems on ERP and MES applications	Nagura GI, Garcia IB, Cubarenco NR, Yoshino RT	Natalia dos Reis Cubarenco
The key role of data strategy in Supply Chain 4.0	Simoes R	Robson Simoes
Logistical Services Digitalization in Small and Medium-Sized Enterprises	Rossi L, Ignácio P	Luiza Rossi
Energy management: New Solutions from the 4th Industrial Revolution	Barbosa J, Fettermann DC, Calegari LP	Jadson Barbosa
Value creation in Industry 4.0: Data, a precious asset for manufacturing companies	Bordeleau FE, Santa-Eulalia LA, Mosconi E	Fanny-Ève Bordeleau
Implementing Industry 4.0 on Brazilian Highways	Coradassi R, Costa U, Solek E	Uriel Costa
